KIDWELL'S COMPOUND PLUID EXTRACT OF BEECH DROP OR CANCER ROOT: (ORUBANCHE VIRGINIANA.)

For the capid cure of Cancer, Ulc-rate 1 Sore Throat, White Swelling, Bronchitis, Dropsy, Dyspepsia, seases arising from an Impure state Prepa et by J. L. KIDWELL, Druggist, George-

His ory of the Beech Drop, or Cancer Root. THE BIECH DEOP, OR CANCER ROOT, is figured and described by the celebrated Dr. Barton, in his Medi-A knowle 'go of its extraor linary medical virtues

was first learned from the North American Indians. by whom it was used for the treatment and cure of Cancer, Rheumatism, Scrofula, and Consumption. The Fluid Extract of Orobanche is composed entirely of the products of the vegetable kingdom, so combined as to possess in the greatest perfection the virtues and powers of an alterative and purifier of the blood. It is, therefore, applicable as a neverfailing remely in Scrotula, whether suppurative or glandular, Chronic Rheumatism, Cancerous diseases in any form, especially cancerous diseases of the Uterus. In all complicated cases of Scrofula and Syphilis, and in cases where the syphilitic virus of parent causes a development of Syphilis or Scrofuls in the child, this is the only remedy upon which a hope of recovery can be reasonably founded. It is useful in all scaly skin diseases, Ulcerated for Throat, White Swelling, diseases of the bone. and all cases of an ulcerous character. It is also particularly useful in Chronic and Nervous Cemplain's, occurring in debilitated and cachetic consti tution; in Broachitis, Dyspepsia, Chronic Enlarge ment of the Liver and Spleen, Dropsy, dis asses of the Kidneys and Blander, and all diseases arising from an im oure state of the blood.

The estimate that is accorded this preparation by the medical profession, and indeed by ail competent to judge of its merits, may be seen in the fact, that it is e instantly prescribed by many of our most eminent physicians, an I that it has been presented to their students as worthy of their especial attention. Tae following certificate is given from the very best authority-John R. Jones, late Assistant Clerk in the House of Representatives. His recovery i considered extraordinary. Most of the members both Houses of Congress visited him at the St. Charles Hotel, and expressed their astonishment at the wonders effected by the Compound Fluid Extract

Washington, D. C., April 29, 1853. For the benefit of the pubcic, and with none other than a desire to do good, I cheerfully state, that I was afflicted with a cough and bronchial affection. from July, 1852, to March, 1853, and during that time was almost constantly confined to my room, laboring under great debility and severe cough. I had medical skill of the highest order, through whose treatment, and under the guidance of a higher than mortal power, my life was prolonge til' March, 1853, when I commenced the use of Dr. Kidwell's Beech Drop, or Extract of Cancer Root. Since that period I have taken about six bottles of the medicine, and it gives me pleasure to state that it has effected an entire cure, with the exception of weakness, occasioned by long confinement to my room. I would advise all persons similarly afflicted to try it. I consider it an invaluable medicine. The humbugs usually palmed upon the public in the shape of certificates favorable to the virtues of melicines, almost deter me from giving mine; but a sense of justice and humanity alone prompt me to make the above statement.

CHRONIC RHEUMATISM CURED! GEORGETOWN, Jan. 31, 1853. DEAR SIR: It is with a sense of gratitude, and desire that others suffering from disease may be in-duced to use the Extract of Beech Drop, that I consent to give the following statement for publicity. Until the last month I was a sufferer from Chroni Rheumatism, from the effects of which my heal h war so completely undermined and broken up, that I lost 20 or 30 pounds of my usual weight. Anxious to find some relief, I resorted to the most approved patent medicines. I used a number of bottles of Townsend's Sarsaparilla, and exhausted the list of Liniments, without any effect. My joints now be came enlarged, and the pains in my limbs so excru-ciating, that they had to be rubbed two or three times a night. The muscles of my legs were so contracted that I presented the appearance of a man of sixty-five when I walked. In this condition, more through curiosity than a belief in its good effects. I commenced t e use of your Beach Drop, and in ton or twelve days the swelling about my joints had subsided; and now, after the use of three bottles, I am able to resume my business, and can walk with the same ease and comfort that I formerly did. Yours truly, &c, ISAAC BARRETT, Second street, Georgetown.

GEORGETOWN, February 1, 1854. Ma. Kinwell-Sir: A female member of my family, aged 14 years, had been affected with a painful serofulous affection of the ear for 4 years, and although the best medical advice was had here and in Baitimore, still the disease increased and the pain often became almost intolerable. Fortunately for us, your Beech Drop was recommended to be used, and I have great pleasure in stating that it has been eminently successful. The Mucous Secretions has not made its appearance for some months; the health of the patient has been quite restored; all the parts that were heretofore so much diseased have become sound and well, and I am much gratified in being able to state to you, that I regard it as having been accomplished entirely by the use of your Beach Drop. I am very respectfully, your obedient servant,

To John L. Kidwell.

GEORGE POE, St. Washington, D. C., December 12, 1853.

John L. Kidweil: Dear Sir—This is to certify that my daughter, aged 2 years, was affected with Scrofla et a very aggravated form—the disease had so undermined her health, that life was entirely de spared of. Hearing of the efficacious effects of your Beach Drop in such cases, I procured it, and after using one bottle so evident was her improvement that we persevered with it. When she had used 4 bottles, her health was perfectly restored. Our neighbors and friends who saw her condition prior to using the Beech brop, unite in attributing to your remedy the credit of her recovery.

Very respectfully yours, William R. McLean.

AGUE AND FEVER-GREAT CURE.-I hereby ertify that for three years I had Ague and Fever the most violent description. I had several Physirians, took large quantities of Quinine, Mercury, and I believe all the Tonics advertised, but all without permanent relief. At last I tried Carter's Spanish Mixture, two bottles of which effectually cured me, and I am happy to say I have had neither Chills or Fevers since. To write you this letter, but I do so under circumstances that justify it. As you are the Agents for House, corner Pratt and Charles street, Baltimore, HAMPTON'S VEGETABLE TINCTURE, I deem it expedient to address you this note, boping it may be a part of the honorable means of giving this medine notoriety which its merits deserve. Being in the habit of vending medicines which re

late to the patent and regular system, I consider myself, to some extent, a judge of the real merit of many of them. My experience teaches me that "Hampton's Tincture" is a Medicine of real merit of intrinsic value. When I say this, I do not say that it is an infallible cure in all cases, but I mean to say that Hampton's Tincture will favorably operate in all diseases originating from a want of proper secreions of the gastric juices, bad digestion, and consequently bad deposits of animal matter from that source. I believe that many diseases located in va rious parts of the system, such as Inflamation, Ul-cers, Scrofula, ac, originally have their being in the stomach, from bad food, bad digestion, and consequently bad depositions of the circulation to those parts; and f will believe Hampton's Vegetable Tinc ure will even react in those cases. Having found out myself what it is, I recommend

to others in such cases as I have described, and I

have done it upon the "no cure no pay" system, and have yet to have the first bottle returned, or the first objection about the pay. It is a great pity, i cannot be more extensively circulated among the it in the following cases; Gout, Rheumatism, Inflamations, which proceeds from the stomach, Scrofula, Sores, Dyspepsis, long standing cases of Ague and Fever; first stop the chill, and then give the Tinc ture—the difficulty in this case is not in stopping he chill, but the return of it, this the Tincture will ertainly do. In general debiliations, I warrant it. and as I said before, I have procured a trial of it in medicine, it works all its wonders there, and in all such cases it is a specific, if anything in the world

Having given the Tincture a fair trial with myself, in my family neighborhood, I think I am waranted in what I say about it, and which I do with out any other interest than the wish to see it in eneral circulation, and in every man's family, just here it ought to bo. They opened the cape, and saw with horror that blood was streaming, fast and thick, down his breast. A short, broad piece of wood deeply stained that it looked like blood, had been ingeniously fastened, in an upright position, to the back of the gig, and to this the unfortunate man had been the floor. It looked as if it had been firmly tied with a strong cord, which was wound round his body and the stake in a upon, it was tern all down the back, certain doubly spiral manner, curiously ingenious and effectual, for the purpose of keeping him upright upon his seat, notwithstanding the motion of the gig-Over all, the cape had been thrown .-

They untied the widely folded handkerchief which concealed his throat and chin-In this, on either side, small piece of wood had been inserted, which had kept his head in position. As they removed the well-contrived bandage, the head fell back with appalling listlessness, and a frightfully torn, mangled throat was exposed to view. M. Bribault was dead. He had gone the preceding day to collect the rents of certain property, of which he had the superintendence, and was expected to return the same evening. On his way home he had been waylaid, murdered! in the manner above described, his trusty horse guiding the way to his master's dwelling. It was found, by the sums which M. Bribault had received, that the robber or robbers had made a booty of

four thousand francs, all in specie. According to the evidence of a physician, the lacerations in the throat of the unfortunate man had been inflicted by the teeth of some animal, most probably those of a dog. Such was the first of this series of crimes. Instant measures were taken for the detection and apprehensions of the criminal or criminals, but without any result. The second outrage was also distinguished by remarkable circumstances. -

It appears that, several townspeople ran after the vehicle on entering the church through the excitement, he proclaimed the fact to the sacristy, he found that the lock of the was disorder; the robes had been moved and disarranged, the floor was covered with blood, the cupboard had been opened and a basin and sponge taken therefrom -the former was filled with water so and the latter appeared like a lump of clotted gore. The abbe's cassock was on drawn along the ground and trampled there were numerous rents about the breast and neck, and it was well nigh saturated with blood. The robes worn by the abbe at grand mass on the occasion of the high fetes of the church had been taken away.

On examination, it was found that the ill-fated priest had been deprived of life in a similar manner as had the victims in the two former cuses. The throat had been torn and lacerated in the same singular and fatal way, and the wounds were covered over with a large piece of coarse pitch plaster. The face and hands of the murdered man had been washed: he had been arrayed in his best robes of office, and earefully placed in the chair below the altar, where he was discovered as described. He had solemnised, the robbed of every farthing, and sent home day before, a marriage betwixt some wealthy parties of the neighborhood; had gone to the residence of the bride's father, where he had spent the remainder of the day; had received the priest's fees, and some handsome 'offerings" to the church: and as he was returning with these, he had been waylaid, robbed and murdered. The impious and sacreligious associations which augmented the enormity of this crime, raised the excitement to an almost unprecedented extent. Nothing else was talked of for a long time. The cleverest police agents from Paris were called to the assistance of those of the locality, and every possible effort made with unflagging carnestness and industry, but still the course of justice was defeated.

Various other outrages, all perpetrated with the same extraordinary combination of secresy, audacity, and horrible origi nality, occurred in various parts of the same district, and at various intervals of time within a period of a year and a half. all obviously belonging to the same series, directed by the same diabolical genius. and perpetrated by similar means. The above instances, however, are all that need be cited here, as we are not engaged in depicting the "Night side of Nature." nor in compiling a companion volume for the "Newgate Calendar," or a requeil from the Gazette des Tribunaux.
